THE COMPANY

HFS Hagner Feinblech Service GmbH has been operating throughout Europe for more than 20 years. The company with its committed employees and state-of-the-art production facilities continues to grow steadily.

As a mill-independent **steel service centre**, we provide our customers with highly competent support and advice, flexible performance and prompt order processing. Firms from a wide range of industries, such as the automotive, electrical and building sectors, industrial engineering, warehouse technology and mechanical engineering, trust in the collaboration with us and are characteristic of our broad customer base.

LOCATION HAGEN-HASPE | CUT-TO-SIZE SHEETS

OUR SITE IN HAGEN-HASPE

Our extended production site in Hagen-Haspe has developed into an innovative, high-output steel service centre with modern plant and office buildings and is thus an investment in the future.

Our favourable location within Germany, generous warehousing capacities and our own transport fleet combined with well-coordinated transport logistics ensure the fast, flexible and on-time delivery of goods.

CUT-TO-SIZE SHEETS

Efficient cut-to-length lines and gate shears (**NEW: AMADA CUTTING CENTER**) are implemented to produce sheet to your specifications in the following dimensions:

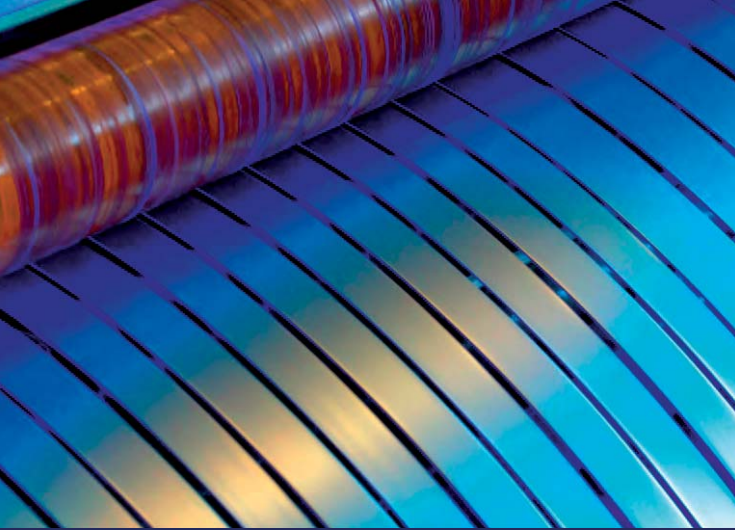

Thickness: 0.40 mm to 4.00 mm
Width: up to 2100 mm
Length: up to 9000 mm

Coils deployed:
Width: up to 2200 mm
Weight: up to 40 t
Inside diameter: between 508 mm and 760 mm
Outside diameter: up to 2340 mm

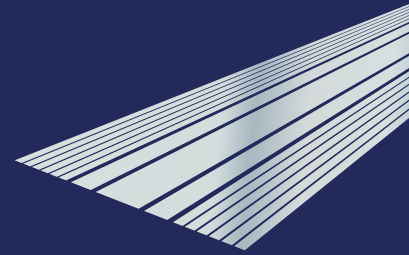

Customised shapes - triangular, rhombic and trapezoidal - cut from coils, with angle settings of up to 25°, also contribute towards optimising your material input!

LOCATION HAGEN-HOHNENLIMBURG | SLIT STRIPS

OUR NEW PLANT IN HAGEN-HOHNENLIMBURG

In summer 2012, HFS GmbH opened its second production site in Hagen-Hohenlimburg, next to the A46, to complement our facility in Hagen-Haspe.

Following an 8-month construction phase for the first manufacturing hall and the installation of a state-of-the-art slitting line, production started in July 2012.

SLIT STRIPS

We produce slit strip for you in the following dimensions:

Thickness: 0,40 mm to 8,00 mm
Width: 16 mm to 2050 mm
Max number of strips: 30 Strips
Coil inside diameter: between 508 mm and 610 mm

Coils deployed:

Weight: up to 40 t
Outside diameter run-out: up to 2100 mm
Outside diameter run-in: up to 2400 mm
Cutable tensile strengths: $R_m \leq 1200 \text{ MPa } t = 2 \text{ mm}$

Processing can be carried out with rounded edges on widths of up to 300 mm.
Slit strip can be supplied in bars with a length of up to 7,000 mm.

JOB ORDER PRODUCTION

Besides supplying our own products, we also have job order capacities available for steel sheets and slit strips. New: We are now also able to handle your cut-to size sheet and slit strip job orders in aluminium!

HFS QUALITY IS CERTIFIED

Material testing: Thanks to continuous inspection and testing in our own materials laboratory Hagener Feinblech Service is able to achieve even the highest quality objectives. The mechanical and chemical composition of the material is determined using the latest technology. In-house spectral analysis equipment is on hand to conform to today's standards and satisfy our customers wishes. Test reports can be provided on request.

Certification: To ensure a consistently high level of quality, a quality management system has been developed which is documented by a **DNV-GL certificate in compliance with standard EN ISO 9001**. Besides this certification, Hagener Feinblech Service GmbH has taken part in Ökoprofit Hagen, a project focusing on resource-conserving production and the resulting of low pollution levels, again emphasising the company's environmental objectives.
